

To the Tank Truck Carrier Industry:

The Military Surface Deployment and Distribution Command, Operations (SDDC) in conjunction with Defense Energy Support Center (DESC) will host Integrated Process Team (IPT) workshops for a Tailored Transportation contract for Bulk Tank Truck movements on Sep 15 in Northern Virginia, Houston on Oct 6, and Los Angeles on Oct 27.

DESC and SDDC are collaborating on this successor to the 2003 TTC. An integral part of the process is to include bulk carrier input from the beginning of the process. The envisioned scope of this effort is to include all of DESC's domestic truck movements of Military Turbine Engine Fuel Grades JP5 and JP8 and Diesel Fuel Grade F-76 from various points in CONUS to various points in CONUS and is therefore a significantly larger effort than the original TTC.

In order for us to determine the number of carriers that may be attending and the size of the room to accommodate all, please provide the information requested below and respond by E-mail to the POC listed below.

The first IPT scheduled for the Eastern carriers will be held on September 15, 2004 in Northern Virginia **at the Holiday Inn Express, 6401 Brandon Avenue, Springfield, VA (703-644-5555).**

The second IPT scheduled for the Mid East/West carriers will be held on October 6, 2004 at DESC Americas East office in Houston, Texas

The third IPT scheduled for the Western carriers will be held on October 27, 2004 at DESC Americas West in San Pedro, CA
